SUMMARY

Full Stack Web Engineer certified through University of Arizona's Coding Bootcamp. Five years experience in management in the Food and Bev industry. Passion for problem-solving and team work in the pursuit of user-friendly application development. Recognized for excellent communication, mediation and conflict resolution skills. Innovative, adaptable and a team-player.

TECHNICAL SKILLS

HTML5, CSS3, Bootstrap 4, Bulma, Git, GitHub, the Command-Line, JavaScript, jQuery, JSON, AJAX, Media Queries, REST APIs, Node.js, Agile, MongoDB, Express and Express-Handlebars, MySQL, Sequelize, React.

PROJECTS

BeerCrawlr

<https://joeybrown-ctrl.github.io/Beercrawlr/>

A brewery and restaurant search app based on the user's desired location. Uses four different APIs: Zomato API, OpenBreweryDB, Algolia, Geolocation API. Front-end built using Bulma and HTML5, and the back-end with JavaScript, jQuery, AJAX, and JSON. Deployed on GitHub pages.

Weather Dashboard

<https://joeybrown-ctrl.github.io/Weather-Dashboard/>

A weather forecast app created with HTML 5, Bootstrap, JavaScript, jQuery, AJAX and three API calls to OpenWeatherMap. By entering any given city into the search input, a current forecast, UV index, and five-day forecast are returned, with search results saved to the page.

EXPERIENCE

Bartender

2019 – Present

La Cocina Restaurant and Cantina

Tucson, AZ

Recognised by management for providing exceptional customer service, developing cocktails, training bartenders and barbacks, and money handling in a busy restaurant bar environment.

Bartender/Co-Manager

2016 – 2018

Good Oak Bar

Tucson, AZ

Started as a bartender, and quickly promoted to the management team. Recognition for excellence in training new bartenders, scheduling, events and social media management. Sought to provide the ultimate guest experience. Sommelier training and special mention in cocktail competitions during time of employment.

EDUCATION

Bootcamp Certificate: University of Arizona Coding Bootcamp -- Tucson, AZ

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Bootstrap 4, JavaScript, jQuery, Node.js, MySQL, MongoDB, Express and Express-Handlebars, React.
