SUMMARY

Full Stack Web Engineer with a background in customer-service. Passionate about problem-solving at the intersection of interpersonal communication and technical systems in the pursuit of user-friendly application development in a team environment. Known for being friendly and good-humored, as well as organized and an excellent communicator.

TECHNICAL SKILLS

HTML5, CSS3, Bootstrap 4, Bulma, Git, GitHub, the Command-Line, JavaScript, jQuery, JSON, AJAX, Media Queries, Web APIs, Node.js, Agile, MongoDB, Express.js, React.js, MySQL

PROJECTS

BeerCrawlr | https://github.com/joeybrown-ctrl/Beercrawlr |
https://joeybrown-ctrl.github.io/Beercrawlr/

Worked with a team of four to build a brewery and restaurant search app based on the user's desired location, and using four different APIs: Zomato API, OpenBreweryDB, Algolia, Geolocation API. Built front-end using Bulma and HTML5, researched and implemented APIs with JavaScript, jQuery, AJAX, and JSON. Guided team through using Git and GitHub.

Weather Dashboard | https://github.com/joeybrown-ctrl/Weather-Dashboard |
https://joeybrown-ctrl.github.io/Weather-Dashboard/

Created a weather forecast app utilizing HTML 5, Bootstrap, JavaScript, jQuery, AJAX and three API calls to OpenWeatherMap. By entering any given city into the search input, a current forecast, UV index, and five-day forecast are returned. The search results are saved to the page.

EXPERIENCE

Bartender   2019 – Present
La Cocina Restaurant and Cantina   Tucson, AZ
Created and served specialty cocktails in a busy restaurant bar environment while navigating multiple POS systems, money handling and training new bartenders and bar backs. Provided a high-level of customer service to ensure guest experience.

Bartender/Co-Manager   2016 – 2018
Good Oak Bar   Tucson, AZ
Started as a bartender, and was quickly promoted to the management team. Took charge of scheduling, training new bartenders, events and social media. Always sought to provide the ultimate guest experience. Somm training and special mention in several cocktail competitions during time of employment.

EDUCATION

Bootcamp Certificate: University of Arizona Coding Bootcamp, Tucson AZ
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Bootstrap 4, Javascript, jQuery, Node.js, MySQL, MongoDB, Express, ReactJS.
